## INFORMATION ABOUT THIS SERVICE

### Description

Alltel Fax2Email is a virtual fax service that allows you to receive documents without the need for a fax machine. Fax messages are emailed to you in PDF or TIFF file format.

A F2E service can be added to any 13, 1300, and 1800 number. Simply use the provided dedicated local number as a redirection point for your service. A 1 page document takes about 1 minute to transmit. Typically, a 10 page document will take 5 minutes or less.

### Minimum term

There is no minimum contract term for this service.

### Inclusions

#### Dedicated local number

We allocate a unique local phone number for each service which can be used as an answerpoint for a 13, 1300 or 1800 phone number. This is an internal system number which is subject to change and remains the property of Alltel.

#### Email2Fax

Our Email2Fax ("E2F") service lets you send faxes online by attaching a document to a provided email with the recipient's fax number. You will receive a notification for every successful transmission. E2F is not available as a standalone service.

### Qualifications

To receive email notifications you will need an active email address.
